

Public Private Dialogue Newsletter

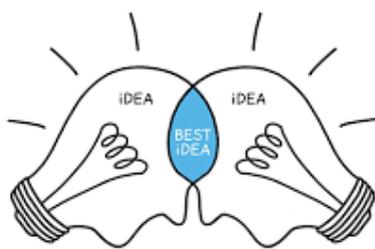

In previous Newsletter, we introduced you the [REGIONAL POSITIONAL PAPER](#) (RPP), which outlines the main **challenge and recommendations**.

The RPP was made by representatives of SMEs, business associations, BSO from [6 EaP countries](#). This initiative received a wide response and support.

It is obvious that this is an **excellent opportunity** to convince donors and international financial organizations, the need to **develop joint projects** and programs to **accelerate the solution** of identified problems, to develop the most promising areas for SME support.

At the same time, we should take into account the synergetic effect of participation in these programs of all EaP countries. The interest in cooperation and the desire to continue interdependence is confirmed by the creation of an international Consortium, which included business associations of Armenia, Belarus, Georgia, Ukraine, Moldova and Azerbaijan.

These business associations are actively promoting RPP. And now they are **centers for developing** and summarizing proposals for **new projects** that all interested people are offering.

The RPP will help you formulate proposals and ideas in five areas:

1. Investment & Business Environment
2. Access to Finance
3. Access to Markets
4. Innovation & Skills
5. Tax & Customs

In each block - specific challenge and recommendations that can be the **basis for the Project Idea**. We expect more than 300 ideas.

All received ideas will be discussed with European organizations, the most significant ideas will **find a sponsor and interested in cooperation**.

**If you have an Project Idea
and are looking for partners,
please let us know!**
